

The **Psychology** program provides students with a broad foundation in psychology. In our program, students learn to understand and apply scientific methodology to explain human behavior and the mind. In addition, our program prepares students for graduate school and professional careers in a range of psychology-related fields. Students enrolled in the program will gain familiarity with the major theoretical approaches, findings, and historical trends in psychology as well as practice skeptical inquiry, critical thinking, and the scientific approach to understanding behavior and mental processes.

Named One of
**“America’s Best
Colleges”** by U.S.
News & World Report

Cazenovia College is an independent, coeducational college, located in Cazenovia, New York, offering baccalaureate programs in the liberal arts and professional studies.

Embracing student success as its primary mission, Cazenovia College comprises a diverse, yet close-knit residential community that creates educational experiences that are individualized for students, matching skill sets with academic programs and co-curricular offerings.

This “one student at a time” approach to the educational experience is what sets Cazenovia apart from other colleges and universities.

STUDENT RESEARCH

The Psychology faculty have a strong foundation in both clinical practice and research. As a result, our students have opportunities to conduct independent research and many present this work at regional psychology conferences. Some recent topics include:

Cell Phone Use as an Addiction
Disordered Eating Intervention
Effects of Exercise on Memory
Music Preference and Personality
Predictors of Romantic Attraction
Psychological Effects of Physical Malformations
Personality and Social Networking Profiles
Sibling and Peer Relationships

SAMPLES OF COURSEWORK

Psychology is a versatile major with a wide range of career options. Immediately after graduation, our graduates have found success in entry level mental health, criminal justice, research and business positions. The Psychology program is also designed to prepare our students for acceptance into a wide variety of graduate programs. We currently have students enrolled in programs ranging from doctorates in psychology to masters in mental health counseling.
